Applicant : Edgar Bothe, et al. Confirmation No.: 2106
Appl. No. : 10/826,553
Filed : April 16, 2004
Title : Method for a Shift Control of a Power Shift Transmission
Art Unit : 3681
Customer No.: 24131

REQUEST FOR FILING RECEIPT CORRECTION

Hon. Commissioner of Patents and Trademarks,
Washington, D.C. 20231

Sir:

Undersigned counsel has received the Filing Receipt for the above-identified application.

However, the foreign application information was listed incorrectly and should be as follows:

▪ GERMANY 101 53 722.0 10/31/2001

The domestic priority information was listed incorrectly and should be listed as follows:

EUROPEAN PATENT OFFICE (EPO) PCT/EP02/10631 9/21/2002

It is respectfully requested that the Patent Office Records be changed and that a new Filing Receipt be issued, so that the printed patent will show the correct foreign and domestic priority information.

Respectfully submitted,

Kyle H. Flindt

Date Mailed: 06/28/2004

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Title

Method for a shift control of a power shift transmission

METHOD FOR A SHIFT CONTROL OF A POWER SHIFT TRANSMISSION

5 Cross-Reference to Related Application:

This application is a continuation of copending International Application No. PCT/EP02/10631, filed September 21, 2002, which designated the United States and was not published in English.

10

Background of the Invention:

Field of the Invention:

The invention relates to a method for a shift control of a power shift transmission, in particular of a motor vehicle,
15 wherein, with a time overlap, an incoming or engaging clutch unit assigned to a new gear is closed and an outgoing or disengaging clutch unit assigned to the old gear is opened.

A power shift transmission is a gear shift or gear change
20 transmission, in which, during a gear change, the transmission of force from the engine to the driven wheels of the motor vehicle is maintained. In other words, there is no interruption in traction in the event of a traction upshift in the traction mode of the motor vehicle and there is no
25 interruption in thrust in the event of an overrun downshift in the overrun mode of the motor vehicle. Conventional types
